FOR STUDENTS LIVING AWAY FROM HOME

Tired of the 11pm “you alive?” text?

One tap tells the people at home you are fine. They see
that you checked in, and nothing else.

FOR STUDENTS LIVING AWAY FROM HOME

1 Not a tracker

There is no location feature of any kind. Nobody sees where you are, who you are with, or what you are doing. The people you add see one thing: whether you checked in.

2 Your rhythm, not theirs

You choose how often to check in, and you can change it. Miss one and reminders come first. Only after a buffer you set are the people you chose asked to look in.

3 Their side is free

A parent, a flatmate, a grandparent. The people you add as Delegates never pay, and never see your messages. Asked to be someone else's Delegate? It costs you nothing too.

4 Erasmus+, a placement, a flight home

No hardware to pack. One check-in after you land updates everyone at once, so you are not answering the same question six times.

Students pay half, for 36 months

Enter the code at checkout. The 14-day free trial comes first.
